HEADMASTER'S EDITORIAL

by Mr Guichard.

International exchanges, collaborative projects and stays abroad are all opportunities for students to develop their linguistic, cultural and professional skills.

International openness is a key part of our school policy and is accessible to everyone, whatever they study.

So if you are interested in languages, cultures or professional improvement, there is bound to be a project to suit you. Do not hesitate to ask your teachers for more information and to share your ideas with us. Together, let's build the future of our school on a global scale.

ERASMUS DAYS 2024

by Aaron V.

What are the Erasmus Days ???? The Erasmus Days are a special week that takes place from the 14 to the 19 October. During these days, people around the world are invited to come together and either organise or participate at events that celebrate the projects and opportunities offered by the Erasmus+ programme.

In Vauvert, those who chose to come did three workshops :

- Getting to know Europe better
- Introduce yourself in Italian
- Training periods abroad.

OUR PARTNERS

LP Vauvert has four partner schools in Europe:

- IOSS, Šibenik - Croatia
- CNSG, Vila Nova de Milfontes - Portugal
- ANOA, Prague - Czech Republic
- CFP Zanardelli, Brescia - Italy

Partners find training periods for the students, host job shadowings for teachers and school members and participate to the different international projects of each school.

We also find them training periods for students and teachers : in March 24, we'll welcome a Croatian teacher!

CULTURAL POINT

by Emy & Roméo.

East is East Review - 18/10/24

The film is about double culture and forced marriages in England in the 70s.

Emy's opinion : I did not like this movie because the atmosphere is special : the characters do not talk properly !

Roméo's opinion : I loved it because the story is great and very funny.

LOTTI'S FAVOURITE RECIPE: PASTA BOLOGNESE

Step 1: slice the onion and make it sweat in oil

Step 2: add the garlic, minced meat and cook it for 10min

Step 3: add the tomato paste and wet with a little water, cover and simmer up to cooked

Step 4: about 20 min before the sauce is ready, cook the pasta al dente in boiling salted water

Step 5: drain them and mix them with the sauce in the pan

Step 6: sprinkle with a little parmesan and serve

(if you wish, add a little green salad to your pastas)

Ingredients for 4:

-salt & pepper -2 tbsp olive oil -1 onion -300 grs pasta -450 grs ground beef -2 tbsp of tomato paste -1 garlic clove -100 grs grated parmesan

STUDENT'S WORDS

an interview by Swann & Precious.

Juliette wanted to do a training period abroad to visit a new country without the parents! She loved her shop where she sold necklaces and beads. Her tutors were very nice and took her visiting. Her advice is not to worry about language level because you manage! if she could, she would do it again !

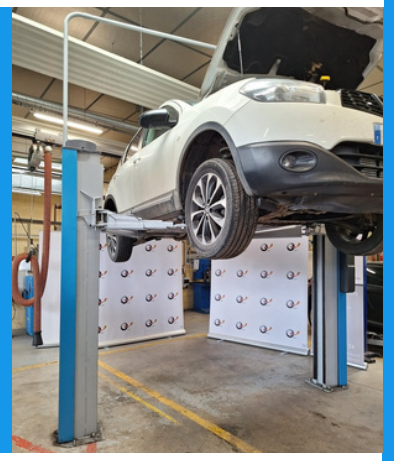

WORKSHOPS : CAR LIFTS

by Clément & Célestin.

Car lifts are used to work and access under the cars. Up to the end of the 20th century, mechanics used pits, but it is too dangerous and there were too many accidents. If you respect **safety rules**, the lifts are not dangerous.

Users' guide : To use the vehicle lifts, you must put the vehicle in place, control the stability and then make it go up. To lower it, you must check if nothing is underneath beforehand.

Ivan & Gabin

STUDENT'S WORDS

an interview by Lou & Antonin.

Gabin applied and was the only bodyworker selected! He was alone in a small garage and his tutor Ivan treated him like family. They even bought a new tool trolley for him! He loved being independent and wants to go abroad again. Preparing for the MobiPro oral examination was difficult but the exam itself was ok. His tutor was very pleased that he could paint very well.
