TRAINING PERIODS

## STUDENTS' WORDS

by Swann & Roméo.

**V. N.DE MILFONTES ALENTEJO**

**Ryan** went to Vila Nova de Milfontes in the Alentejo region of Portugal for his internship last year. The positive points of his internship are what he learnt about culture, the people and nature. Ryan's negative point is cooking: he had to cook on the weekends! He loved that he had to learn surfing for the training period: he worked at Vagabond Surf Shop !

**Sullivan, Thomas and Morgan went on a month training period to Šibenik, Croatia in May 2024.**

Sullivan wanted to go to get experience, Thomas because it was his first trip abroad, and Morgan went for the trip. Their biggest fear was to take the plane and to be far from their families.

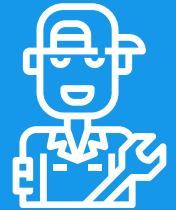

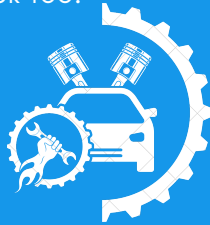

What they loved the most was to be alone and autonomous : it was like holidays ! They also loved to discover Croatian culture. They are willing to go again because it enriched them a lot.

**Erasmus+**  
Enriching lives, opening minds.

## OUR WORKSHOP OUTLET

by Kélia

The workshop outlet is where tools and spare parts are kept. How does it work? When a student needs a tool, he asks for it. He gives a token in exchange for the tool he borrows. The shop keeper keeps track of the tools and of stock. When the student is finished his work, he gives the tool back and get his token back too.

## EL RINCÓN DEL CURIOSO

El 4 de enero 2025.

### Destinos perfectos para disfrutar en enero

Enero suele ser sinónimo de la resaca que sucede a las fiestas de Navidad y de la famosa cuesta de enero, pero es también un excelente mes para realizar escapadas. Los destinos de nieve están en todo su esplendor, mientras que otros ofrecen un clima suave y agradable donde soportar mejor los rigores del invierno.

### Fiesta en Mallorca

Visitar Mallorca en enero no solo supone evitar la saturación de otros meses, sino que ofrece un plan insuperable: vivir con los mallorquines las fiestas en honor al patrón de la isla, Sant Sebastià. Las celebraciones suelen tener lugar entre el 18 y el 24 de enero. En ellas, abundan los fuegos artificiales y las barbacoas.

The CAP section organise for the selling of hot/cold drinks and sweets during school breaks at 10 am and 4 pm !

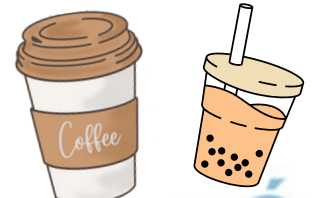

*Don't be late!*

It is such a success that people have to queue and sometimes students are not on time for class... And students are not allowed to eat or drink in class in France...

### HOT DRINKS!

by Zakarya.

## VAUVERT VOCATIONAL SCHOOL INTERNATIONAL BULLETIN

### UNDIFFERENTIATED YEAR

by Lotti & Zoé.

**If you are a first year student of the industrial sector, you are in undifferentiated class about vehicle maintenance. At the end of your first school year, you will either go to motorbike mechanics or car mechanics.**

In the undifferentiated class, you can do your internship in a motorbike or a car garage. You can change in the middle of the year if you realise what you prefer.

**You have the entire school year to decide!**

At the end of the school year, you have to put your wishes in a software that will decide if you go on with car or motorbike mechanics because of/thanks to your grades.

### TRAINING PERIODS

by Lou, Aaron C & Kélia

French vocational school students must do 22 weeks internships.

To find a company, students should go to many companies/garages and bring a CV and a cover letter.

Applicants must be well-dressed, not have any piercings and be very polite.

BEWARE! Without those 22 weeks, it is not possible to pass the exam.

#### Vocabulary :

a training period = a work placement = an internship
