GRADUATION CEREMONY

by Matéo.

For the last 3 years, Vauvert Vocational high school have been organizing a ceremony to give former students their diploma. The ceremony, which takes place on December 4th 2025 this year, hosts many teachers, the headmaster, the former students and their families.

This ceremony is organized to mark the leap from high school to adult life and to make it memorable for the former students.

Without the ceremony being like a huge American celebration, it still marks the break in between childhood and adulthood.

CAREER NIGHT

by Ethan.

What is it?

It is an event where middle and high school students can have a look at everything that is possible for their studies. All schools which offer post A-Level studies are there.

What public?

- middle school students looking for a high school
- first year high school students looking for their majors (academic studies) or sections (vocational students)
- high school students looking for college

Vauvert Vocational high school is always at Career Night thanks to our Security & Prevention and Reception sections :

SP students filter the public at the entrance while Receptionists welcome, inform and guide those who need it.

Dec. 3rd at Prado, Bourges

CHRISTMAS MARKET

by Ethan.

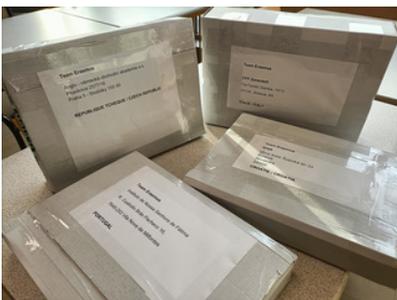

Vauvert local Christmas market is organised by Vocational GCSE students. It will take place in the didactic shop.

Local producers will come to sell their goods like *Les bougies de Challay* (candles) or *Mercier* (chocolate maker).

CHRISTMAS GIFTS

by Ewan.

Like every year, in the Erasmus Club, we made a christmas gift with recycled objects to send to our Erasmus European partners.

Like last year, the gift is made of an old encyclopedia book given by the library to decorate partners' libraries.
